

The Ethical and Religious Theories of Bishop Butler (Classic Reprint)

Excerpt from The Ethical and Religious Theories of Bishop Butler This work is intended primarily for those who have already had some acquaintance with Butlers writings, but will also, it is hoped, prove interesting to the wider circle of general readers who have hitherto not attempted to fathom the original itself. As far as the author is aware, there is no other book which covers exactly the same ground as this attempts to do, in estimating Butlers value, both from the ethical and religious standpoints, and in suggesting a critique of main lines in more modern criticism. The present production will perhaps have justified its existence if it serves in some measure to realize this end. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
