

Andrew Johnson Military Governor of Tennessee (Classic Reprint)

Excerpt from Andrew Johnson Military Governor of Tennessee This book, as its title implies, is an attempt to trace the personality of Andrew Johnson through the years 1862-1865, when the burden of military government and reconstruction in Tennessee rested principally upon his shoulders. With this purpose in mind, I have refrained from going into several tempting by-paths of the subject. The military administration in West Tennessee, for example, for which not Johnson, but the generals of the regular army stationed at Memphis were primarily responsible, has been scarcely touched upon; so, too, the working of the Federal trade regulations in Tennessee, a subject on which a separate monograph might be written. Nor have I carried my account beyond the spring of 1865, when Johnson left Tennessee for Washington. The subsequent details of reconstruction in the state may be found in J. W. Fertigs The Secession and Reconstruction of Tennessee, which also treats of the period of the war, but which was written before the Johnson papers in the Library of Congress were available for study. As is apparent from the footnotes, I have based my account largely upon the Johnson papers, the Official Records of the Union and Confederate Armies, and the contemporary newspapers. Of these last, the Nashville Union is a source of the highest importance. It is, of course, polemical and violently partisan, but it contains a surprising amount of detailed news of any local occurrence of interest and notices and discusses all references to Tennessee affairs which it discovers in exchanges; and its assertions can usually be checked from other sources. I have made little use of Brownlows Knoxville Whig, a file of which is in the Yale University library, or of Parson Brownlows Book, for the obvious reason that, in this period of his career, the choleric parson was consciously blinking facts and coining

political capital out of superlatives. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
