

Life of Henry Clay, Vol. 1 (Classic Reprint)

American history have been the subjects of more heated controversy than Henry Clay. There was no measure of detraction and obloquy to which, during his lifetime, his opponents would not resort, and there seemed to be no limit to the admiration and attachment of his friends. While his enemies denounced him as a pretender and selfish intriguer in politics and an abandoned profligate in private life, his supporters unhesitatingly placed him first among the sages of the period, and, by way of defense, sometimes even among its saints. The animosities against him have, naturally, long ago disappeared; but even now, more than thirty years after his death, we may hear old men, who knew him in the days of his strength, speak of him with an enthusiasm and affection so warm and fresh as to convince us that the recollection of having followed his leadership is among the dearest treasures of their memory. (Typographical errors above are due to OCR software and don't occur in the book.)
