

## America Answers a Sneak Attack: Alcan and Al Qaeda

An analysis of how America overreacted to Pearl Harbor at the outset of World War II by building the Alcan highway and other projects, believing that Alaska would be Japans next U.S. target. This governmental panic to do something resulted in massive spending on unnecessary actions similar to what happened after 9/11-including waste, profiteering, bureacritic infighting, coverups, and an assertion of Americas dominating role in the world. But the Alcan Highway let black soldiers achieve greater racial equality and gave Harry S Truman sufficient prominence to lead to his selection as Franklin Roosevelts running mate in 1944.
