

Being Bengali: At Home and in the World (Routledge Contemporary South Asia Series)

Bengal has long been one of the key centres of civilisation and culture in the Indian subcontinent. However, Bengali identity Bengaliness is complicated by its long history of evolution, the fact that Bengal is now divided between India and Bangladesh, and by virtue of a very large international diaspora from both parts of Bengal. This book explores a wide range of issues connected with Bengali identity. Amongst other subjects, it considers the special problems arising as a result of the division of Bengal, and concludes by demonstrating that there are many factors which make for the idea of a Bengali identity.
