

# Bridge Street to Freedom: Landmarking a Station on the Underground Railroad

A dramatic TRUE story about the preservation of an Underground Railroad site where two centuries met, of a heroism that transcended race, of a community memory that would not die. Multiracial Van Rensalier tells the remarkable story of Paterson, New Jersey abolitionists William Van Rensalier and Josiah Huntoon--one black one white--who exemplified interracial cooperation on Bridge Street, Huntoons corner safe house on the Underground Railroad prior to the Civil War. A vacant lot since 1983, Alaya recounts how this corners symbol of 19th Century abolition became in 1995 a powerful common ground where demonstrations for racial cooperation helped restore peace to this riot torn city, and in 1996 helped preserve the site and its history. In 1984, this sacred ground also re-united deeply buried black ancestral roots severed for two generations by the pressures of Americas racism. After years of searching for her suspected African American ancestry, Van Rensaliers genealogical journey led her to this same Bridge Street to freedom. In her prologue, she describes her pride, emotions and legacy in discovering her great grandfather William was not only black, but a black abolitionist. I understood why Huntoon and Van Rensalier were abolitionists, and why I was their bridge on this street to freedom. For my children, for my country, for humanity, I too had to keep fighting what had enslaved my black and white ancestors...my family and the psyche of our nation. In 1994, Van Rensaliers extensive research and appeal essay, now part of this book, eventually became the bases for the sites preservation. Dr. Alaya, Italian American professor of literature and cultural history at Ramapo College, was also chair of Patersons Historic Preservation Commission during the period of most intense public debate over this Underground Railroad site in 1995. She

thus played an active and influential part in the public process by which Van Rensalier and the African American community saved this sacred ground from insensitive development as a fast food franchise. Her account of the complex story behind the story underscores the power of both racial cooperation and community resolve in preserving African American culture.
