

French Revolution from 1793-1799 (From 1793 to 1799)

Magnificent book about the French Revolution, Michelets (not Burke, not Carlyle could match its emotional commitment to the heart rather than the idea), Lamartine (readers have sung the Marseillaise leaving through the history of the Gironde), then comes Lefebvre, a modern..narrates at Michelets tempo the measures of Lamartines events. No doubt the moderns attraction is to the more objective clause, and yet, at some point an image of Marianne strats to appear in the pages. Yes, a son of the Revolution, on the way to the annaliste school. This is what modern historical writing should be all about.
