

Grover Cleveland (Classic Reprint)

Excerpt from Grover Cleveland
The object of this series is to present, in a brief space, a picture of the public life of different nations who contribute to the history of our times. This end, it is believed, may be best attained by a study of the career of some conspicuous personage in each nationality. In the case of the United States of America, there is no one now alive who has played so important a part, and who, at the same time, possesses so distinct a personality, as Grover Cleveland. He has been for many years the leader of a great political party, which returned to power after a proscription of nearly a generation. He has had the distinction - rare in modern times - of being elected twice to the highest office recognized by the Constitution. In the earlier period of the nation's history, the election of a President for a second term was the rule. About the Publisher
