

Georgetown University Round Table on Languages and Linguistics 1999: Language in Our Time: Bilingual Education and Official English, Ebonics and Standard English, Immigration and the Unz Initiative

Marking the return after a two-year hiatus of this annual collection of essays on linguistics and language education, the 1999 volume speaks to the most pressing social issues of our time. More than thirty contributors from around the world take up longstanding debates about language diversity, language standardization, and language policy. They tackle such controversial issues as the Official English movement, bilingual education, and ideological struggles over African American Vernacular English.
