

The Right Way: Why the Left is Wrong and the Right is Right

THE RIGHT WAY: Why the Left is Wrong and the Right is Right provides a bold and insightful exploration of the Left's true agenda and exactly what is wrong with each and every part of it. Why THE RIGHT WAY is the only way that really works. Ideal for the newcomer to politics, but filled with enough humor and verve to delight the experts, too! The book follows a unique design in which the Left's view of each issue begins on the left side of the page, facing the Right's view on the opposite side. This makes the contrast between the two views all the more distinct and memorable. The 30 topics covered are placed in alphabetical order to make finding them all the easier. This concise and easy-to-read book will immediately open your eyes to the world around you like never before. If you care about your country, this book is for you!
