

Structures and Beyond: The Cartography of Syntactic Structures, Volume 3 (Oxford Studies in Comparative Syntax)

Structures and Beyond: The Cartography of Syntactic Structures, Volume 3

ADRIANA BELLETTI,
Editor

OXFORD UNIVERSITY PRESS

Adriana Belletti here collects work presented by top scholars at a workshop at the University of Siena in connection with a visit by Noam Chomsky. These eight articles go beyond strictly mapping syntactic properties, touching on broader theoretical questions related to Chomsky's Minimalist Program in particular. The reputation of the contributors, combined with the collection of cutting-edge research in one place, will interest scholars and students of generative linguistics.
