

Reflections On How We Live

The pioneering moral philosopher Annette Baier presents a series of new and recent essays in ethics, broadly conceived to include both engagements with other philosophers and personal meditations on life. Baier's unique voice and insight illuminate a wide range of topics. In the public sphere, she enquires into patriotism, what we owe future people, and what toleration we should have for killing. In the private sphere, she discusses honesty, self-knowledge, hope, sympathy, and self-trust, and offers personal reflections on faces, friendship, and alienating affection.
